

Using technology to bring information to residents of the Thumb

ThumbResources.org is an Internet based resource directory. It connects consumers with local providers of health, counseling, education, and other human services. For consumers, this is the best one stop resource. The searchable database makes it easy to find the services you need. This powerful directory gives even small businesses and non-profits a website presence. Information helps professionals make referrals by keeping them up to date on changing services.

*The ThumbResources.org
Philosophy & History*

Vision Statement: That the people in Huron, Sanilac, and Tuscola Counties will have access to the services they need.

Mission Statement: To help families and community organizations connect with resources in the thumb.

ThumbResources.org began in 1994. The website was started by the Community Health Assessment and Improvement (CHAI) Workgroups for Huron, Sanilac, and Tuscola counties. They believed a website could simplify the process of updating resource directories. As a result, the Internet based resource directory, ThumbResources.org, was formed.
